“ *John was a good man and cherished friend of mine. We would sit at our local automotive shop in Goreville Illinois and talk about fishing for hours, John would tell me about all of his new fish finding gadgets and his new prized sonar that mapped bodies of water I was supposed to go help him map a lake south of Goreville. We never got the chance life is too busy and gets in the way sometimes.....you will be missed deeply I will see you on the other side brother.*
